

# AMERICA DEMANDS RESHID'S DISMISSAL

## NORTH SHORE LOSES ONE OF BIGGEST TRESTLES

### RESHID MUST BE DISMISSED

While in Power Lives of Americans Are Insecure.

Minister Leishman Makes Demand of Turkish Government.

CONSTANTINOPLE, Sept. 10.—United States Minister Leishman has presented a demand to the Turkish government for the dismissal of Reshid Pasha, wali at Beirut, on the ground that so long as he is retained in office the lives and property of Americans in Beirut is insecure. The Porte has not yet replied to the demand, nor has there been any development in connection with the other American claims.

The dispatch of Nazim Pasha to Beirut from his post at Damascus is considered to be a preliminary step toward a settlement. Nazim Pasha received an enthusiastic reception on his arrival at Beirut, a crowd at the railway station cheering him repeatedly. The town was then perfectly tranquil.

According to the latest telegrams, however, the Consuls continue to transact their business with Reshid Pasha, wali at Beirut.

#### CHRISTIANS STILL UNEASY.

Beirut advices received here late yesterday stated that uneasiness still prevailed among the Christians there, and that the exodus to the mountains continued, but no fresh disturbances had occurred.

Rear-Admiral Cotton, commander of the fleet, has been ordered to land five hundred marines and blue jackets from the Brooklyn and San Francisco in case of urgent necessity.

Nothing is known here about any arrangements made by other Powers for sending warships to Beirut.

Private advices from Kirk Kilish state that while the Turkish regular troops are conducting themselves well, the Albanians are insubordinate and are pillaging and burning villages and are even threatening their own officers when they are ordered not to plunder.

Up to September 7th, thirty-seven battalions of troops had been concentrated in Kirk Kilish district.

An Imperial trade has been issued ordering the repair or reconstruction of the fortifications at Adrianople, Chatalja, Erzerum and the Bosphorus.

### AMERICAN CITIZEN RELEASED AT BEIRUT.

WASHINGTON, Sept. 10.—Minister Leishman has cabled the State Department that he has secured the release of Abdul Kader Mathaney, a naturalized citizen of the United States, born at Tripoli, Syria, who, soon after returning to his native country in 1901, committed an offense for which he was sentenced by the Consular Court of the United States at Beirut to a term of six months in the Syrian jail. In the early part of the current year he was arrested at Tripoli and condemned by the local court for the same offense to three and a half years imprisonment. Minister Leishman promptly protested against this violation of the rights of an American citizen.

### FRENCH AMBASSADOR MAKES DEMAND TOO.

WASHINGTON, Sept. 10.—Minister Leishman cabled the State Department from Constantinople that the French Ambassador has demanded the removal of the Governor at Beirut and that other foreign representatives probably will do the same.

Mr. Leishman is vigorously urging the Sublime Porte to replace the Governor by some one more capable of preserving order and of giving more efficient protection to American citizens and interests. In this course, he has the approval of the State Department. Nothing is said in his cablegram of further disorders at Beirut.

**AUTHORITIES ARE RESPONSIBLE.**

The Navy Department has received a cablegram from Rear-Admiral Cotton, dated Beirut yesterday, stating that the arrival of the Turkish Governor-General from Damascus has restored confidence. The Governor-General has warned the local authorities that he will hold them responsible for disturbances. Admiral Cotton says that the

### SUICIDES BENEATH A TRAIN.

Mrs. Kate Williams Casts Herself to Death.

Body Torn to Pieces By Cars on First Street Line.

One of the most deliberate and successful public attempts to end one's life was made this morning to the horror of a number of people who happened to be in the vicinity by Mrs. Kate Williams, aged 28 years, who unhesitatingly threw herself in front of a flying train on First street, near the intersection of Peralta.

**TORN TO PIECES.**

When the train had passed it was found that the unfortunate woman had been literally torn to pieces.

Fragments of the remains were scattered along the track for some distance and shreds of flesh were found hanging to the underworks of the locomotive and train.

**FLYING TRAIN.**

The tragedy was enacted through the instrumentality of the Alameda local, which was going at a rate of speed too rapid to be checked when the unfortunate woman came into view of the engineer in the cab.

As quickly as possible the train was stopped by Engineer Hammond, who was in charge of the locomotive. Conductor Buckman was in charge of the train.

**HUSBAND RODE OVER WIFE'S REMAINS.**

The remains were picked up tenderly and placed in a coffin and borne to the morgue. A peculiarly sad feature of the tragedy was the fact that the husband of the woman was on the train at the time that her life was crushed out.

The victim was the wife of Joseph H. Williams of 1535 Fifth street, who is a brakeman in the employ of the Southern Pacific Company.

It is said that the act of the woman was caused by demeritic, which was superinduced by over-indulgence in intoxicating liquor.

### HORSES BURN AT RED BLUFF.

RED BLUFF, Cal., Sept. 10.—A fire this morning totally destroyed the Fashion stables, owned by Cox & Swain, two store buildings adjoining the stable on Main street, and a number of sheds and buildings on the alley, belonging to the stable property.

Fourteen head of heavy horses were burned, with a number of buggies. Some of the horses belonged to private owners.

The fire started in a barn across the alley from the stable and spread rapidly. The cause is not known. The loss will be several thousand dollars.

### ALAMEDA'S ASSESSMENT INCREASED 20 PER CENT

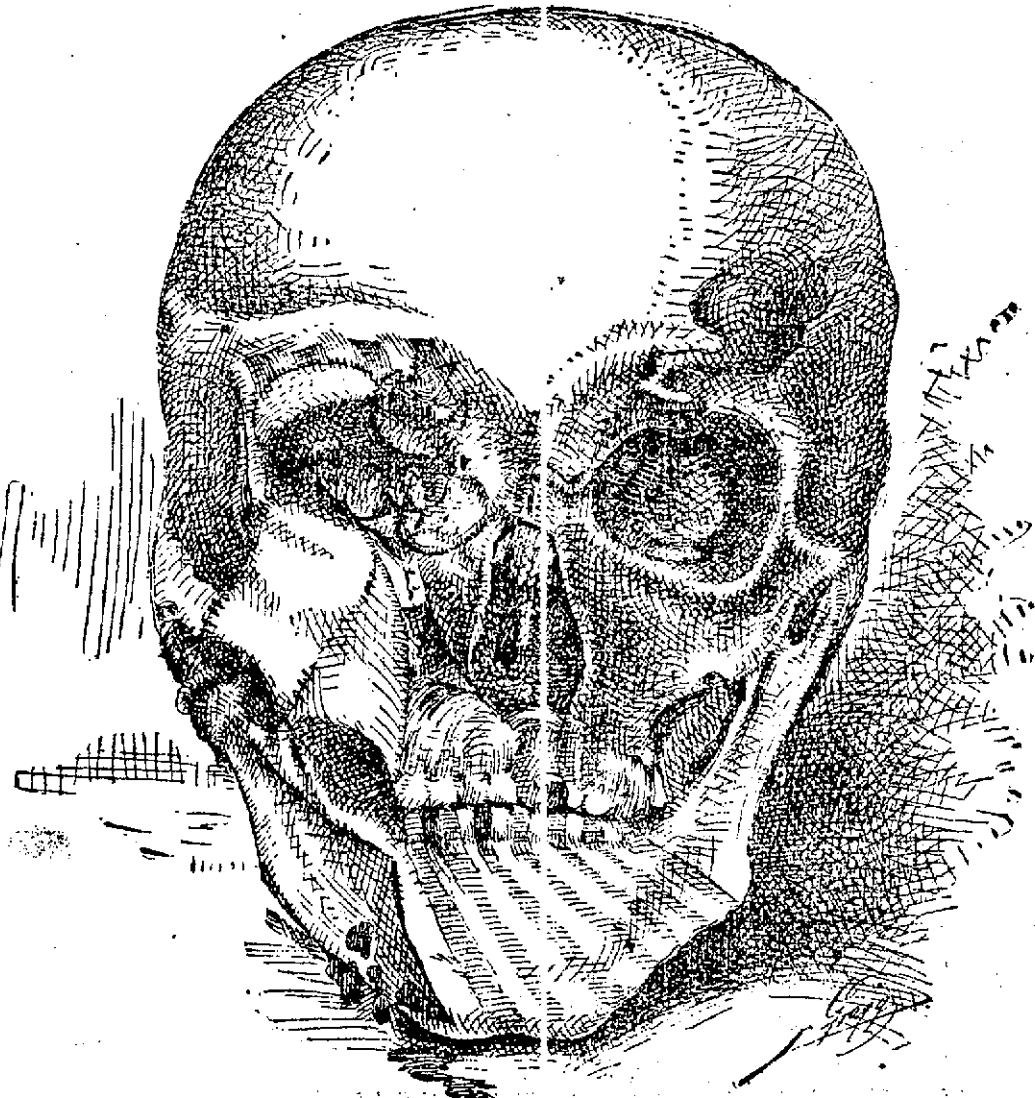

SACRAMENTO, Sept. 10.—The State Board of Equalization today raised the assessment of Alameda county by 20 per cent.

### SAN FRANCISCO ASSESSMENT RAISED 30 PER CENT.

**Action Taken This Morning by State Equalizers, Value Now Being \$545,855,324.**

SACRAMENTO, Sept. 10.—San Francisco's valuation, as fixed by the State Board of Equalization this morning, is \$545,855,324, or an increase by the board of 30 per cent over the figures returned by that county. San Francisco's increase is \$118,213,674.

## BIG TRESTLE NORTH SHORE ROAD, WHITE'S, DESTROYED BY INCENDIARY FIRE.

**Narrow Escape of Excursionists and Northern Towns Must Lose Railway Communication for Several Days.**

SAN RAFAEL, Cal., Sept. 10.—It is reported from Point Reyes that a high trestle on the North Shore Railroad, near White's Hill, was totally destroyed by fire last night.

All-rail communication is cut off between San Francisco and all northern points beyond here on the narrow gauge road.

Hundreds of excursionists sojourning at the resorts above here on Admission Day had a most narrow escape.

**TOURISTS' NARROW ESCAPE.**

One train load of nearly 500 picnic-

ers had just passed over the structure en route to San Francisco when the fire was discovered. The train shot out of a long tunnel to the wooden structure and over it. A rear brakeman noticed the flames creeping up the superstructure.

An alarm was immediately given and the railroad company had assistance there in a short time, but too late to save the trestle.

**WORK OF INCENDIARY.**

From the location of the conflagration it is thought by company officials that the fire was the act of an incendiary.

The North Shore Company has suffered many serious wrecks and consequent loss of life during the past year, all on their up-country branch, north of this city.

Some of the disasters have been traced to the train wreckers, but as yet the culprits have not been apprehended.

**TRAVEL CUT OFF.**

Travel will be cut off for several days as the trestle was over a deep canyon and it is impossible to run a temporary track across. Many excursionists have to remain up-country or stage many miles, reaching home via the California Northwest road.

### YOUNG FIRE-BUG'S WORK AT WHITTIER.

LOS ANGELES, Sept. 10.—Word has reached here of a serious incendiary fire at the State Reform School at Whittier which did \$1,500 damage in the assembly room of the main building.

An investigation of the origin of the blaze resulted in a charge against Charles Waller, an inmate of the school for setting fire to the building.

Waller is what is termed a wild degenerate and has been in trouble at the school before. He is eighteen years of age and was committed from Glenn county charged with larceny in the second degree. He will be returned to jurisdiction of the Glenn county Superior Court.

### STOLEN BALLOTS BURNED.

BAKERSFIELD, September 10.—The ballots stolen from the City Clerk's office, on which depended the result of the election contest now pending in the courts, were burned in a lonely gully

### ARSON FOLLOWS MURDER.

Cabin of Witness to An Assault Laid in Ashes.

Another Mysterious Death Follows Strike in Victor Col.

VICTOR, Colo., September 10.—Mike Rogers, a miner living at Cameron, has disappeared and his cabin has been burned. The fire is generally presumed to have been of an incendiary origin. Rogers is known by the authorities to have been the only man who saw the assault on James M. Stewart, the carpenter, ten days ago.

Rogers has since protested that he did not recognize any of the men who accompanied Stewart from his home on the night when he was left at the roadside for dead.

The man found dead near Clyde, with a bullet hole in his body, has been identified as Patrick Burns, a railroad laborer. Whether he was murdered or accidentally shot is undetermined, but it is evident that the shooting had no connection with the strike or the presence of the military in the camp.

C. G. Kenniston, president of the District Miners' Union, No. 1, was struck in the face and knocked down on a car this morning by a non-union miner, who was on his way to work, after a heated argument between the two men.

Kenniston drew a revolver, but was disarmed before he could shoot. No arrests were made.

**EDITOR'S HOME DESTROYED.**

BERNE, Indiana, Sept. 10.—The home of Frederick Rober, editor of the Berne Witness, was entirely demolished by dynamite early today. The family was extricated from the ruins with slight injuries. Rober's paper leads the opposition to licensing saloons.

### SLAYS FATHER OF HIS WIFE.

Kisses Spouse Good-bye and Seeks for Two More Victims.

Officers in Pursuit Expect a Pitched Battle.

ST. LOUIS, September 10.—A special to the post-Dispatch from Waterloo, Ill., says:

"William Hoffman, a young farmer, living near Mayestown, Ill., twelve miles southeast of Waterloo called his father-in-law, Dr. W. M. Brandt, to the door of his house, last night and shot him to death.

"Then he rode back to his wife and told her that he had 'killed the old hound,' her father. He gave her \$2, which he said, he wanted her to spend on the christening of their four-weeks-old daughter, Mary. He kissed her, and their four children and rode into the woods.

"There are two men I must kill before I kill myself," he said to his wife before leaving.

The family of Dr. Brandt offers a reward of \$500 for Hoffman's capture. Sheriff Thomas Rupp and a large posse are searching for him and expect at any time to have a pitched battle with him.

He is armed with a shotgun and revolvers. Before killing his father-in-law, he purchased fifty rounds of cartridges for the car.

Hoffman is an unerring marksman, strong, athletic and the officers believe was driven to recklessness by whiskey and his imaginary troubles.

It is supposed that Hoffman killed his father-in-law because the old gentleman refused to increase his weekly allowance. Dr. Brandt was quite wealthy and had been practically supporting his son-in-law and family.

city was quiet Tuesday night and business improving.

## VALI COULD NOT RESTRAIN POLICE.

PARIS, Sept. 10.—Advices received by the Foreign Office from Beirut say that Nazim Pasha, vali of Syria, is making a thorough investigation of the causes of the recent disorders at Beirut and that he has given assurances to the foreign consuls that he will severely punish the guilty. Under the circumstances, it is added, the French, British and Italian consuls have de-  
clared that they do not intend to send American marines, as contrary to the Constantinople advice, the excitement has subsided and the Christian refugees were returning to their homes. The investigation thus far made in-  
to the outbreak has shown that the police participated in looting the shops and houses, the former vali, Reshid Pasha, being unable to control the police.

## GREECE CO-OPERATES WITH THE PORTE.

LONDON, Sept. 10.—A special dispatch from Athens quotes Premier Zaimis as saying that the Greek government is determined to co-operate with the Porte in the suppression of the insurrection in Macedonia, though Greece is fully in favor of the institution of reforms after order has been restored. He denounced the attitude of the Bulgarians, saying that their aim is to destroy all the Greek Christians and to prevent Macedonia from becoming independent.

## EUROPE ON BRINK OF PRECIPICE.

LONDON, Sept. 10.—"Europe is standing on the edge of a precipice," today said a diplomatist, who is participating in the international negotiations in connection with the Balkan question, "and no one can tell but that tomorrow may see Turkey and Bulgaria plunged in war in spite of all the efforts made to prevent it, and though the powers separately have made strong representations to Bulgaria to desist from aiding the insurgents and are on the eve of making a joint demand for the observance of a policy of strict neutrality. In the meantime Turkey is becoming encouraged by the attitude of the powers toward Bulgaria, and there is a strong feeling among the Mohammedans that the opportunity is at hand to take summary vengeance on the Bulgarian people. The Turkish Government has now engaged in war and we believe hesitates to embark on a move which may result in the armed intervention of Europe. The only encouraging sign in the situation is the understanding between the powers, all of which we are sure are upholding Russia and Austria in their efforts to maintain peace."

ALL OF THE advices, official and otherwise received here agree in saying that the Turkish Government has now re-stored quite at Beirut and that the Porte appreciates the necessity for taking action in the matter, as shown by the United States Minister, Mr. Leshman.

## MILITARY RESIST CIVIC POWER

## HOW POPE LEO DIED

CARDARELLI ASSERTS THAT PON-

PLEURISY.

ROME, September 10.—Prof. Cardarelli, the eminent physician, who is a member of the Senate publishes in the "Rivista d'Italia," today, a long article to demonstrate that Pope Leo XIII died of tuberculosis cancer of the right hy-drothorax. He fortifies his statement with arguments based on his own ex-  
perience and that of authorities such as Trousseau, Barth, Frankel and Zagar, to show that all the symptoms of the illness of Pope Leo as stated in bul-  
letins by Doctors Lapponi and Mazzoni lead to the conclusion that the late Pope was not affected by the pleurisy or pleuro-pneumonia.

legislation, although imperfect, is more desirable than sudden and comprehensive changes, even though those changes are toward greater perfection.

**MODERATE LEGISLATION.**  
"Some moderate financial legislation, which will relieve the periodically recurring money stringency in the money center is probably desired, and may be enacted. But such legislation, if enacted, will be simple in its nature and will not disturb or alarm the business interests of the country. No legislation is possible at the coming session of Congress which will radically affect our entire currency system and cause the business world, to pause in our present prosperity until it is seen how such legislation is going to work."

**MAINTENANCE OF CREDIT.**  
"The maintenance of credit is the only great financial question and always must be. And credit is only another name for confidence. Confidence is preserved by reasonably permanent adjustment of business to any given lines of financial and commercial policy more than by all other things put together."

**STEADY LEGISLATION.**  
"I do not mean that there should not be gradual changes in all of our laws as those laws here and there become out of date. But I do mean that it is better for business to adhere to some settled line of policy than to suddenly and radically change it. Our whole

## financial and industrial legislation should be steady and should not be spasmodic.

**BANKERS SERVANTS OF PEOPLE.**  
"Within banking circles themselves all contention should cease. There is no natural antagonism between Eastern and Western bankers. Naturally, their interests are the same. Bankers east and west are the financial servants of a single people, under a single flag, and require the entire financial necessities of business in the East to be cared for by Eastern bankers, whose territory they have invaded. Western bankers should not object to a measure which will relieve the local Eastern stringency which the Western bankers themselves have caused."

"On the contrary, the Eastern bankers should not invade the territory of the Western bankers, when Eastern money is plentiful, and thus invite reprisals in their own fields by the Western bankers. There should be mutual consideration, each section taking care of the financial necessities of its own people as long as it has the money to do so, and relieving the necessities of another section only whenver they are not able to take care of themselves."

**TIDE OF PROSPERITY.**  
"There never was a period when the tide of prosperity has risen so high as now; and its crest has not yet been reached. But upon the shoulders of the bankers of the country more than upon any one set of business men depends the continuance of this fortunate condition. If, without reason, the bankers indulge in vague apprehensions they will themselves bring about the very thing which they fear. If the bankers begin to exercise cowardice instead of prudence; if, without any reason except timidity, they begin to contract their loans and reduce their credits, that confidence upon which all business rests and of which the bankers themselves are the beneficiaries, will be impaired. But this will not occur. The bankers of the republic are too intelligent, too brave, too patriotic."

The next event was the first stage of the carbine team match, open to teams of five men each from any military organization armed with the carbine of the army, National Guard or any foreign government. The distances are five shots each man at 200 yards, and five shots at 300 yards.

An hour later the veteran organizations of the National Guard of any State were started. Each man was required to fire ten shots at 200 yards. LOS ANGELES, September 10.—Carl F. Hunt, a lineman employed by the Home Telephone Company, aged 18 years, is dead as the result of coming in contact with a heavily charged electric wire.

He had climbed to the top of a telegraph pole, and, before adjusting his safety-belt, grasped one of the wires. He instantly became rigid and swung from the wire by his hands. Before assistance could reach him, Hunt dropped to the pavement below, dying soon afterward.

Hunt came here from Hartford, Kas., recently. His mother is said to be a wealthy woman of Hartford.

## THE LATEST NEWS.

JAPANESE  
SLAYS IN  
SAN JOSE.

Kills Husband and Then  
Turns Gun on  
Himself.

SAN JOSE, Cal., September 10.—Two Japanese, a man and a woman, are dead at the morgue, and another Japanese lying fatally wounded in the receiving hospital, the outcome of a bloody episode in the Japanese section of Chinatown late this forenoon.

The dead are one Kudo, a gambler, and Mrs. Tabuchi. The man still alive is S. K. Tabuchi, the husband of the woman.

The affair has not been cleared up, though this much is known, that Kudo, after having been run out of Chinatown by the Japanese, returned today and entering Tabuchi's lodging house first shot Tabuchi in the back, then killed the latter's wife and afterwards in an adjoining room committed suicide.

The shooting brought the officers to the place.

The room was on fire, but the flames, caused probably by the pistol shooting, were soon extinguished. In a trunk the sum of \$436.50 was found.

One theory is that Kudo went to the room for the purpose of robbery, and that he was in love with Mrs. Tabuchi and that her rejection of his advances induced the idea of a double murder.

BLAZES INVEST  
DOWNIEVILLE.

SEVERAL MILES OF TIMBER HAVE  
ALREADY BEEN DE-  
STROYED.

DOWNIEVILLE, Cal., Sept. 10.—The worst forest fire that has ever visited this section is burning in the timber on the mountains close to town and several miles of valuable timber have already been destroyed.

The fire has crossed the South Fork of the North Fork of the Yuba and is spreading rapidly in all directions over a territory never before visited by fire.

The old McKinnis ranch, near Downieville, and the Shafter ranch, four miles east of town, were in the path of the fire, but by prompt action of crews of men in back-firing, they were saved. Several properties on the Sierra City road narrowly escaped destruction.

From that sum, five per cent, or \$79,853,301, delinquencies and collection of same, making the net valuation upon which the tax levy is based, \$1,517,182,730. The Legislature required the board to raise for the general fund \$5,200,000 for the school fund \$2,617,993 for the interest and sinking fund \$141,435, or a total of \$7,959,425, or 52 cents and 6 mills on each \$100 of assessable property. To this was added two cents for the State University and one cent and five mills for the High School fund, making a total rate of 56 cents and one mill. The rate for 1902 was 38 cents and two mills. The total value of all property in 1902 was \$1,289,676,062.

VOTE ON ASSESSMENTS  
STANDING.

The vote on the motion to let the assessment stand of those counties other than the counties that were raised, stood as follows:

In favor—Beamer, Mattison, Colgan and Brown—4.

Against—Alford—1.

## ALFORD'S EXPLANATION.

Equalizer Alford of San Francisco in explaining his vote, said he voted against passing the other counties because he was not in favor of letting their assessments stand while that of San Francisco was raised.

Alford moved to reduce San Francisco's assessment 15 per cent from the figures returned to the State Board of Equalization by the County Auditor. The motion received no second.

He then offered the following resolution:

IS CHARGED WITH  
ASSAULT.

TELEGRAPH OPERATOR WHO  
SHOT MRS. KERGAN FORM-  
ALLY CHARGED.

SAN FRANCISCO, September 10.—C. T. Hubbard, the telegraph operator who was arrested last night for shooting Mrs. Kergan, wife of Dr. W. V. Kergan of Oakland, was charged with assault to murder this morning. The hearing was put over till Monday at the request of the attorney for the accused.

GOV. NASH PROSTRATE  
AT FALL FESTIVAL.

CINCINNATI, O., Sept. 10.—Governor Nash, who was prostrated while being escorted through the fall festival grounds last evening, is better today and returns to Columbus this afternoon.

"Resolved, That the amount of the assessment of Los Angeles county as returned by its County Auditor, be reduced 15 per cent, and that the assessments of other counties remain as they have been returned by their respective Auditors."

Alford was the only member of the board to vote for the resolution.

Equalizer Mattison moved that San Francisco be increased 30 per cent. The motion carried, Alford and Colgan voting no.

## VARIOUS MOTIONS.

Alford then moved that all the counties outside of San Francisco be raised 30 per cent for the purpose of putting them on the same basis with San Francisco. The motion received no second. He then moved to increase those counties 35 per cent, but received no second and so on to 30 per cent, 15 per cent and 5 per cent, with the same result.

Alford announced that his votes in favor of raising the counties would be cast solely for the purpose of putting them on the same basis with San Francisco, and for the purpose of protecting that city against discrimination. He gave as his reason for voting no on the motion to pass the counties not raised by the board that in his opinion San Francisco was assessed as high and higher than she ought to be, and, therefore, he could not vote for the motion to pass any county after the board raised San Francisco.

## COUNTIES INCREASED.

Following are the percentages of increases:

Alameda 20 per cent, Butte 10, Contra Costa 10, Humboldt 10, Marin 15, Mendocino 15, Napa 10, Orange 15, Riverside 15, Sacramento 15, San Bernardino 15, San Francisco 30, Santa Clara 15, Santa Cruz 10, Solano 10, Sonoma 10, Ventura 10, Yolo 10 per cent.

The increase in each equalization district is as follows:

First (Alford), \$118,213,676; second (Brown), \$27,993,056; third (Beamer), \$113,882,993; fourth (Mattison), \$13,433,831.

LOST LIFE  
IN MINUTT  
HOSPITAL

Miss I. D. Clark Sister  
to Mrs. Jerome Hart  
Asphyxiated.

SAN FRANCISCO, Sept. 10.—Miss Isabelle D. Clark, aged 32, a sister of Mrs. Jerome Hart, and daughter of the late Jeremiah Clark, whose family is one of the most wealthy in this part of the State, was asphyxiated at the Minnett Hospital last night.

She was found dead in bed by her maid this morning. Miss Whitelaw detected the odor of gas and calling Miss Mattie Schmidt, the matron of the hospital, the two entered the room occupied by Miss Clark and found her dead in bed with the jet of the gas stove turned on.

Miss Clark had been at the hospital several weeks and was being treated for nervous trouble. She had no special nurse, except her maid, and had been in the habit of being left alone when she retired at night.

About two years ago, Miss Clark attempted to commit suicide, but was saved through the action of one of her sisters. Since then she has lived very quietly almost in retirement at the Clark home in San Jose. No reason except ill-health can be assigned for the suicide. A private note addressed to Dr. McNutt was found, but the contents have not been made public.

H. D. BACON LEFT  
BIG ESTATE.

FIGHT FOR REDUCED ALIMONY  
SHOWS MRS. F. SOULE'S SHARE  
ONE THIRD.

The value of the estate left by the late Henry D. Bacon has become a material point in the petition of Professor Frank Soule now being heard by Judge Melvin, in which he asks to be relieved from the payment of \$75 a month alimony on the grounds that his former wife is wealthy in her own right by reason of the fact that she has inherited a one-third interest in that estate. Professor Soule through his attorney, W. W. Deamer, was engaged this morning in showing the court that the estate was worth \$1,250,000 and that Mrs. Soule had properly by reason of this inheritance valued at over a quarter of a million dollars.

Mrs. Soule was on the stand all the morning, but owing to the wrangling of attorneys over the admissibility of evidence as to value of property prior to the granting of the divorce decree, she was not allowed to shed much light on the private affairs of the estate. Judge Melvin however finally held that the entire matter was relevant and pertinent to the question at issue and the matter is being gone into with thoroughness this afternoon.

Attorney Deamer first introduced the appraisal of the estate of Henry D. Bacon, filed with the courts which shows the value of the estate at that time to have been \$383,724. The first annual accounts of the executors was introduced, showing that over their own signature \$333,724 were received from the estate the first year, and that Mrs. Bacon had been allowed a family allowance of \$300 a month.

Mrs. Soule admitted having received a life interest in that estate at her father's death and another sixth upon the death of her mother, making her share of the estate a third. She not only testified that the property belonging to the estate has increased in value since the time of her father's death, but that the swamp lands in San Joaquin county belonging to the estate and appraised as being of no value have been reclaimed and have added largely to the first valuation.

## FLAMES AT PLEASANTON.

PLEASANTON, Sept. 10.—The entire Fire Department was called out here yesterday to quench the flames of a burning hen coop in the backyard of A. S. McDougall, game warden of Alameda county. There was great excitement which ended in a laugh at all concerned by a wisecracker asserting that a setting hen, laboring to hatch a china egg, had fired the coop.

At first it was believed that there was to be a general conflagration and that the hose and the hook and ladder companies were soon to be called. When they arrived the first blast from a three-inch hose served to forever put the flames beyond doing harm. The question of the origin of the fire then came to be discussed and no one was able to give a satisfactory explanation, but the aforesaid wisecracker broke up the assembly.

ADELINE  
WALDORF  
SUICIDES

Takes Fatal Dose of  
Carbolic Acid While  
Standing.

SAN FRANCISCO, September 10.—While suffering from melancholia, Miss Adeline Waldorf, whose father is a well-known local newspaper man, committed suicide this morning on Cole street between Page and Haight streets by drinking an ounce of carbolic acid.

The young woman was found by a milkman standing against a building shortly before 5 o'clock this morning. She had just taken the fatal dose of acid and was on the verge of collapse.

A. G. Lytle, a newspaper carrier, happened along, and he informed Policeman J. J. Burdette, and the young woman was taken to the Park hospital in the carrier's cart.

Dr. Harvey, who was on duty at the time, worked heroically to save Miss Waldorf's life, but his efforts were vain. She died shortly after being placed on the operating table.

## DUE TO MELANCHOLIA.

The girl's mother, who identified the body at the morgue this morning, ascribes her suicide to an attack of temporary insanity. She had no love affairs and, aside from occasional fits of melancholia, she was strong and healthy.

BIG SCANDAL  
IN 'FRISCO  
POSTOFFICE

WASHINGTON, Sept. 10.—As a result of the investigation instituted by Assistant Postmaster-General Bristol, one of the officials of the San Francisco Postoffice has been indicted. The name of the indicted man has not been made public by the department here, and will not be perhaps for some days, but the name of D. S. Richardson, general superintendent and secretary of the Postoffice at San Francisco, is whispered in connection with the story. Richardson was summoned to Washington some weeks ago and is reported to have left San Francisco on August 27th, and to be at present in this city.

It is said the indictment grew out of the connection of Postmaster Montague and Superintendent Richardson with the sale of boxes.

It is definitely known that Postmaster W. W. Montague of the San Francisco office will resign within a few days. No further indictments are expected, but there will be a pretty clean sweeping of the San Francisco office, and that office is on the eve of a notable turnover.

## UNSPEAKABLE CRUELTY.

And here is the Atlanta Constitution making this indictment a most impossible request of the oracle of Fairview.

"There is one supreme debt that Mr. Bryan owes to the Democratic party and which he should be generous and humble enough to pay in full. He should either talk sense when he talks politics—Not even one part of sense to sixteen of Bryanism will satisfy this implacable censor. Talk sense or shut up! And Mr. Bryan can do neither in the name of humanity, in the name of patriotism, in the name of peerlessness, in the name of the tottering masses and the bleeding brow of labor, we protest against this cruelty."—New York Sun.

ISLANDS SEIZED  
BY QUIROS.

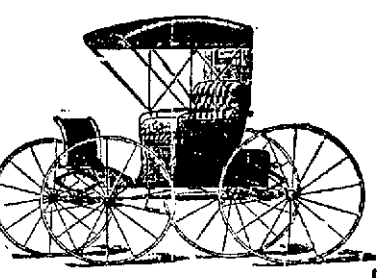

U. S. GUNBOAT TAKES BRITISH  
PROPERTY OFF COAST OF  
BORNEO.

LONDON, September 10.—The British Foreign Office is said to have made representations at Washington against the recent seizure of two or three islands off the northeast coast of British North Borneo by the United States gunboat Quiros. These islands are not connected with those off the coast of Sandakan (capital of British North Borneo) over which the American flag was recently hoisted.

The Quiros is stated to have lately visited a port on the northeast coast of Borneo and to have thence steamed to Darvel Bay, an important center in Borneo, 150 miles southward. There, the seizure is said to have occurred. The islands, which have been under British administration for the last twenty-five years, were originally infested by pirates, who were driven out by the chartered company of Borneo. The action of the Quiros was brought to the attention of the Foreign Office, which took up the matter.

It is asserted that the Foreign Office that the whole question of the islands is now under consideration at London and in Washington.

Oscar Witting pleaded guilty in the Police Court this morning to the charge of carrying concealed weapons and was fined \$5. Witting, who lives at Melrose, is in the employ of the telephone company as a lineman. As he was returning to his work the other day at the close of the noon hour, two men stopped the horse he was driving and one of them jumped into the buggy and threw back Witting's coat, exposing a 44-caliber buldog revolver. An officer was notified and Witting was placed under arrest.

## A MEASURE OF MERIT.

OAKLAND CITIZENS SHOULD WEIGH WELL THIS EVIDENCE.

Proof of merit lies in the evidence. Convincing evidence in Oakland is not the testimony of strangers. But the endorsement of Oakland people.

That's the kind of proof given here—the statement of an Oakland citizen.

John M. Foy of 834 Jackson street says: "For an indefinite period I have had a backache. When there was added to it trouble with the kidney secretions and aggravation of the pain when I caught cold or happened to get my feet wet I knew in some way that my kidneys were either weakened or over-excited. When the last attack occurred I went to a drug store for Doan's Kidney Pills and commenced the treatment. It must have strengthened my kidneys if weak or allayed inflammation if over-excited for the backache stopped. Since then I have noticed a slight indication of aching in my back and trouble with the kidneys and I at once resorted to a dose or two of Doan's Kidney Pills. Up to date that ailment had not been in vain."

# MARRIAGE BELLS AT NIGHT.

HAPPY MARRIAGE AT PARENTAL HOME OF MISS SUSIE I. ANDERSON.

The Anderson residence at 717 Brush street was the scene of a very pretty wedding last night when at 8 o'clock Miss Susie Irene Anderson became the bride of Thomas F. Duignan.

The house was beautifully decorated, pink and green being the color scheme. Ferns and pink gladioli transformed the parlors into a perfect bower, while the large square window was made into a temporary altar, by the same lavish use of flowers and ferns.

The bride wore an elaborate gown of white crepe de chine and carried a bouquet of carnations and maiden hair ferns, while her maid of honor, Miss Stella Hansen, and bridesmaid, Miss Nettie Anderson, wore white chiffon. The attending flower-girls, Misses Eva Hansen, Jessie Hansen and Frankie Polovich, looked very pretty in pink.

The father of the bride, H. J. Anderson, chief engineer of the same "Encinal" gave his daughter away, while Rev. Dr. Morrison performed the marriage ceremony. James Duignan, brother of the groom, and a friend, Lester Hamilton, attended the ceremony.

During the ceremony, Mrs. M. Jones sang "O Promise Me." After the wedding supper and reception, Mr. and Mrs. Duignan, Mr. and Mrs. B. Davis, Mr. and Mrs. C. R. Elder, Mr. and Mrs. I. Maynard, Mr. and Mrs. C. Kendall, Mr. and Mrs. Le Fevre, Mr. and Mrs. T. Duignan, Mr. and Mrs. Tomkey, Mrs. A. M. Case, Mrs. M. ## ANOTHER CURRENCY SCHEME.

Some of the big New York bankers have informed the President that if the section of the National Banking Act forbidding the retirement of National bank notes in excess of \$3,000,000 in any one month no other currency legislation will be required at this time. It is stated that this would give greater elasticity to the currency by permitting the banks to contract and expand the volume of notes at will. Precisely. That is exactly what the section of the law alluded to was intended to prevent. Congress wisely deemed that no set of men should be invested with the power to contract and expand the volume of circulating medium at will.

If the section limiting the retirement of bank notes to \$3,000,000 a month were repealed, it would place the financial control of the country absolutely in the hands of the great syndicated banks of New York City, which have secured control of many of the larger National banking institutions in the interior cities. They could make money scarce or abundant just as they desired. A better scheme for squeezing borrowers to make them let go of desirable securities could not be devised. The volume of money in circulation could be decreased to the extent of a hundred millions or more in a few days. The screws could be put on anybody. All business would be at the mercy of the National banks, or rather the great syndicated banks of the metropolis controlled by men like Morgan, Rockefeller, Sage and others of their stamp.

Gradually the country is learning what these great financiers mean by an elastic currency. It is a currency that they can control, to inflate or contract as may best comport with their designs without reference to the public needs or the legitimate demands of business. The group of financiers who are striving to obtain the mastery of our monetary system also control the great railway and industrial combinations. Invest them with the power to create artificial stringencies and they will have the whole country in a grip that will be relentlessly exercised. Their demand for an asset currency was in reality a demand for a currency they could inflate or contract at pleasure. The mere statement of the object carries its own condemnation.

## HERE'S TO US.

Yesterday we celebrated Admission Day—those of us who did not work with music, banners, parades, speeches, ice cream and flirtations with the California girl, having between times of these diversions interludes of self-satisfaction and self-admiration that tend to enlarge self esteem and the occultal circumference. California is the only State that rejoices in an Admission Day. There are several other States in the Union, but they either lack the generous self-appreciation or the bounding enterprise to properly emphasize with blare of brass and rhetorical tropes the anniversary of their admission into the family of States. California has alone risen to the situation, and thus established her pre-eminence among American commonwealths.

California is a credit to the Union. It has signally honored the federation of States by becoming a member of it. While this is not said in a spirit of condescension, it must be acknowledged that our superior merit is not always appreciated or given that cheerful acknowledgment that it deserves. In reality all the other States of the Union should today be celebrating the anniversary of the day that California honored them by consenting to join them as one of the family. Since they sullenly refuse to show us this deference we celebrate ourselves and demonstrate our native worth as a self-respecting people should.

And why should we not celebrate? California is the best State in the Union. It may rightly be regarded as a special dispensation of Providence to one that is permitted to be born in it. Those who came here from other countries exhibit an honorable perception of its glories, but those who are able to call it their birthplace are the real salt of the earth. In them nature has exhausted her handiwork. As models of patriotism, understanding and virtue, they are without peers. As the Golden West is the choicest spot on the footstool, so is one to the manor born relatively superior to others of the species. Wherefore we celebrate.

And who shall say us nay? Are not the fruits of the earth richer here than elsewhere? The wonders of nature more marvelous? Have we not within our borders the highest mountains, the biggest trees and Scipio Craig—radiant, red-haired and irresistible? Have we not the peerless Yosemite, the Golden Gate and Millitas? Does not our far-flung coast line cover nine hundred miles of latitude? Was it not here that the Pet cigarette and the pungent tamale were perfected? Was not California discovered by Cortez, rediscovered by Father Junipero Serra and again discovered by Ray Stanford Baker?

Hail glorious land! Hail to its sons who honor their sires! Thrice hail to Admission Day! We are IT. Modesty forbids us to say more.

## PROTECTION AGAINST VICIOUS IMMIGRANTS.

The following from the Los Angeles Express is so clearly right that it deserves more than passing attention:

"Henceforth there will be a new obligation laid upon the foreigner who desires to expatriate himself. Secretary Cortelyou has decided that persons from abroad who wish to live in the United States must keep out of jail for three years, otherwise they will be deported on the ground they have become a public charge. Under the old law the foreigner simply had to keep out of the poor house for one year after entering the country, but by recent legislation the period of probation was trebled.

"This ruling of the new secretary of the Department of Commerce and Labor, is eminently sound, and his contention that a person in jail is a public charge is an exhibition of acumen which commands approval and admiration. It will do much to facilitate the operation of the statute against anarchistic aliens and criminals. They will either have to be good enough for three years to escape going to jail or they will have to leave the country. With such an incentive to virtue and rectitude, a few might be entirely reformed during that length of time."

Every person who is permitted to land on these shores and make his home among our people, to share our opportunities and enjoy the blessings of complete civil and religious liberty, should be a good citizen and able to make his way in the world without becoming a burden to society or an enemy to the social organization in which he is cast. Vice, pauperism and criminality should not be imported. We have enough of that sort of thing without bringing it in from abroad. Under the new rule, three years' probation is required to establish an immigrant's right to remain in this country. The laws provide for this but they have not heretofore been enforced with either energy or perspicacity. In consequence our criminal and pauper population has been swelling at an extraordinary rate. European countries have systematically dumped their mendicants and criminals on us, and in this work the trans-Atlantic steamship companies have greatly aided. So they get their passage money they do not care what kind of human freight they bring. Their influence has been strong enough in the past to render the enforcement of the immigration laws a mere farce.

The Stockton Independent claims that San Joaquin county was shabbily treated at the State Fair because its agricultural exhibit was only given fourth prize. Other counties that made fine exhibits got no prizes at all, yet they are not kicking. Somebody must be first and somebody last in every competition, and the results should be accepted in good spirit. Alameda county was given only the third prize, but we do not ascribe that result to any unfairness on the part of the Committee of Award or to any shortcoming of the county itself. The fact simply is that some other counties made a better showing than we did. Beyond doubt Sacramento county, which is only separated from Yolo by the Sacramento river, has as many resources and capabilities as the winner of the first prize, but the people of Sacramento failed to make as good a presentation as their neighbors. That is all there is to it. Instead of complaining about being shabbily treated, the San Joaquin people will exhibit much more sagacity by mending their weak spots and coming up next time with a superior exhibit. Do your best and don't cry.

The suspicion is gaining ground that Jim Jeffries is the real Altkoond of Swat.

It does not seem that the press, the State Department and the navy have gone to extremes in the matter of acquainting the world with the fact that our government has a Vice-Consul at Beirut, and that he is still alive.

Mr. James Creelman must be superintending the Bulgarian massacres for the telegraph. Otherwise we can't account for the wholesale slaughter of women and children in Macedonia. The gory dispatches are dated from Sofia, which is the capital of Bulgaria, and the chief seat of the manufacture of Turkish outrages. The purpose of these extravagant stories is plainly to fire the Christian heart against the infidel Turk, but the campaign of lying is handicapped somewhat by the fact that the civilized nations have agents on the ground who keep their respective governments informed as to actual occurrences.

## A BLACKMAILING PROPOSITION.

The Colombians remind one of those Irish patriots whom Grattan described as determined to sell their country as cheaply as possible. Their idea of the canal question is to get all the money that it is possible to obtain from anybody and everybody for the privilege of excavating a waterway across the Isthmus of Panama. The benefits to be derived by their own country by making a highway for commerce there do not appeal to them. The cause of enlightenment and progress cuts no figure in their calculations. The only consideration that appeals to them is the amount of ready cash to be squeezed out of those more directly interested in putting through the canal.

When the United States arranged to buy the canal concession from the French company the Colombians increased their demands in several particulars. First, they wanted \$17,000,000 cash down instead of the \$7,000,000 they had agreed to take, and second, they demanded that the annual rental be doubled. When a treaty was negotiated embodying those increased demands, they rejected it, and have presented a new set of demands so preposterous as to be entirely beyond serious consideration. They want to increase the cash indemnity to \$20,000,000, and the annual rental to \$400,000. They also propose to narrow the concession down to the mere privilege of excavating the canal across Colombian territory, and demand the further privilege of extorting from the French Company \$10,000,000 of the \$16,000,000 that the United States Government has agreed to pay for the concession and the work already done. In other words, the company is to be charged \$10,000,000 for the privilege of selling the concession and the United States \$20,000,000 for the privilege of buying it.

A bolder case of blackmail was never presented. It illustrates the bandit-like propensity of the mongrel civilization of the so-called republics of Spanish America. Ignorant cupidity is whetted by a seeming opportunity. It is assumed that our government is determined on constructing the canal, and that Panama is the only place that an inter-oceanic canal is practicable. Rapacity is only stimulated by concession. As soon as one demand is acceded to larger ones are promulgated, and with each increase in monetary demands the size and importance of the concession diminish. Every agreement is repudiated as soon as made to clear the ground for additional exactions.

There is a story of a traveler in Sicily who fell among bandits that illustrates the methods and morals of the statesmen of Colombia. In response to a polite demand his purse was handed over. Then his watch was required with a little less ceremony, and next his other jewelry came in for a more summary confiscation. His outer clothing being given up in compliance to a still gruffer demand, he was again halted after proceeding a short way and stripped without ceremony, and left naked and penniless to make the best of his plight.

In Colombia we are dealing with a horde of ignorant venal demagogues, who see in the canal proposition the chance of their lives to feather their nests. There is no limit to what they think they can extort. The more money they want the more grandiose their patriotism becomes and the more dearly they prize their sacred honors.

It looks as if we would have to locate the canal at Nicaragua after all. We cannot submit to the demands of this rapacious crew, and there are just three other things left for us to do; either give up the canal project altogether, or transfer it to Nicaragua, or encourage the State of Panama to secede from Colombia.

## Hints for the Ladies.

Passion flowers are prominent in the new embroidery patterns.

A soft linen cloth which is employed for no other purpose is better to use when bathing the eyes than a sponge.

Do not wear shoes too small for the feet. It will cause them to grow large and very unsightly and will make graceful walking an impossibility.

To keep milk sweet for several days add a teaspoonful of fine salt to each quart of new milk.

Mix blacking with cold tea rather than water for thus a better polish is obtained on the boot.

To clean tinware use powdered whitening moistened with a little paraffin. Polish with a leather or with a pad of old newspaper.

A new tooth brush should be soaked in cold water for some hours before being used, as this will prevent the bristles coming out.

Match marks on a polished or tarnished surface may be removed by first rubbing with a cut lemon and then with a rag dipped in clean water.

When cleaning wall paper do so with a lump of dough made of flour mixed with a little soda water. The soda will not injure the paper and the work will be done more rapidly with it.

Lavatory pipes may be cleaned of soap and slime by leaving a good handful of common salt in the basin overnight. The salt will gradually dissolve and the first flush of water in the morning will clear the pipe.

If ink be spilled on the carpet it may be taken up without leaving a stain if dry salt be applied immediately. As the salt becomes discolored brush it off and apply more. Wet slightly. Continue till the ink has disappeared.

A useful cement for earthenware vessels is found in white lead. Spread it on strips of calico and secure with bands of twine. This method is only suitable for earthenware pans, etc., which are intended for service and not for ornament.

Embroideries are being much used in tailor suits. Some of them are very rich and beautiful. The tailors are trying to use the plainest, loths, the hardest serges and roughest tweeds, in contrast to the elaborate fabrics which were used in the construction of last winter frocks.

The chemist and corset cover in one always appeals to the slender woman. A waist shirring over which ribbon-run heading is applied, seemingly divides the garment of finest made of longcloth, gingham, lawn or similar material, and any amount of decoration may be given.

A craze for the moment in the edifying world is to have the initials embroidered on the instep in intricate and elaborate design. So disguised and ornate indeed are these that at first glance they are hard to decipher amid their setting of leaves, scrolls, etc., but on a closer examination they proclaim their usual presence.

Very simple yet pretty are the sachets made by taking Japanese napkins, dropping the powder of a bit of cotton in the center, then folding the napkin in fancy shape and tying with ribbons. For the house linen drawer these sachets may be filled with sweet clover blossoms, dried rose leaves, lavender, rose geranium, leaves or lemon verbena.

Use boot trees if you would be economical; they not only keep the boots in shape but they stretch out the leather and prevent its forming deep creases and then cracking. The same boots should not be worn every day; it is far more economical to have at least two pairs and on taking one pair off to put it on the trees or twenty-four hours to dry and get in a proper shape again.

If a new shoe does not conform comfortably to the shape of the foot put on a smoothly fitting stocking, fasten the shoe and put the foot into as warm water as can be comfortably borne, covering the instep. Fold the foot in the water until the leather is quite wet, then keep the shoe on till thoroughly dried. This treatment will not harm the finest patent leather or other leather and makes any shoe fit with perfect ease.

**MUCH BAD WHISKY.**  
At the recent annual convention of the National Pure Food Congress an address was delivered by E. W. Taylor, a Kentucky distiller, containing some facts which certainly should be of interest to all who use whisky as a beverage or for medicinal purposes. According to the statement of this large distiller, a statement which he abundantly supports by quotations from official statistics of the Treasury Department, adulterated goods amount to not less than 80 per cent of the total of the so-called whisky sold in the markets of this country. As a suggestion in the line of pure food legislation there is no conceivable reason why Congress should not compel the manufacturers of spurious whisky to label their goods for precisely what they are. This suggestion should appeal to temperance advocates, for it is quite certain that there would be less so-called whisky drunk if the users knew that instead of a genuine article they were taking into their stomachs simply alcohol diluted.

## An Incident that was Not a Surprise

because it is not infrequent, occurred yesterday. A lady who formerly lived in Oakland moved two years ago to Southern California. She had always been a patron of The Lace House, and after her long absence she entered the store yesterday and this is the story she told us:

"I have come to Oakland especially to make our family purchases for the winter of you. Last year I went to San Francisco but failed to get anywhere near the satisfaction I obtained at The Lace House. So I'm here again, I see the store is much larger than it was two years ago, and I hope to see it a whole lot bigger."

## WORK IN LABOR UNIONS

ORGANIZATIONS' MEETING AGAIN AFTER BIG DISPLAY OF MONDAY.

Yesterday at the State Convention of the American Labor Union, sympathy with the striking Randburg miners was declared, and it was advised that the American Labor Union and all organizations affiliated with it should lend all possible financial assistance to the strikers thereby helping them in their struggle to better their conditions, and to sustain their adopted position while doing so.

During the evening session of the convention, were held lengthy and exhaustive discussions of reports of committees on constitution and by-laws.

Tomorrow at 10 o'clock the meeting will be continued.

**DISTRICT COUNSEL OF TEAMSTERS.**  
There was no meeting of the District Council of Teamsters last night as it was a holiday.

**BRIGHT'S DISEASE AND DIABETES NEWS.**

A Californian in Italy.

San Francisco, Sept. 7, 1903.

Theodore Bacigalupi of 1900 Union street, prominent in the Italian colony of this city, has returned from a trip to Europe. He was in his native city, Genoa, Italy, nearly a year, where he learned that a friend of his by the name of Centenaro, who is the purchasing agent in Genoa of the Compagnie Generale Italiana, one of the largest steamship companies of Europe, had diabetes.

Both Centenaro and his physician believed he was incurable until Bacigalupi told him of the Fulton Compound. They were sent from this city, and to the surprise of the patient and his physician, the physician noting with great interest the decline of the sugar and the gradual restoration. When Mr. Bacigalupi left the cure was complete.

Another patient, a wealthy man, wanted to go on the treatment, but there being only enough on hand for one case, it was not divided, but more is now on the way to Dr. Alfredo Basteri of Genoa for this and other cases.

The doctor is a relative of Mr. Bacigalupi and is well known, having been Vice-Mayor of Struppa, Genoa. And thus the news that Bright's Disease and Diabetes are now curable is filtering through the world. Fulton's Compound for Bright's Disease is for Diabetes, \$1.50. Jno. J. Fulton Co., 409 Washington street, San Francisco, sole compounder. Send for literature.

lon. The meeting is for the purpose of discussing the new schedule adopted by the drivers. They have asked the assistance of the bakers in forcing it. The bakers wish to carefully investigate the matter before they pledge themselves. The members from each union comprise the conference.

**DISTRICT COUNCIL OF PAINTERS.**

The District Council of Painters met in San Francisco last night and immediately adjourned without transacting any business. The following Oakland painters went over to attend the meeting: W. E. Scully, treasurer of the Painter's local union and secretary of the Oakland Labor Council; F. H. Moser, business agent of the local painters' union, and William Jones, delegate to the district council.

**BAKERY WAGON DRIVERS.**

The bakery wagon drivers will hold a meeting tonight in Cooks and Walters' headquarters, corner of Eighth street and Broadway.

**ATTENDED BANQUET.**

William Jones, W. E. Scully and F. H. Mosher of the local Painter's Union attended a banquet in San Francisco given by the Varnishers and Polishers' Union of that city. The affair was given at 951½ Market street and was very enjoyable.

**STEVEDORES.**

The Stevedores' Union met last evening at Cooks and Walters' headquarters. Only routine business was transacted.

**LINEMEN.**

A number of striking linemen went to work this morning for the electric light company. The strike is expected to last most all the men are now employed so distress will not force them to give in to the company. No reports have been received at the local headquarters in the past few days in regard to the strike situation at other towns throughout the state. It is feared that everything is quiet. The men at all waiting to hear the result of the Western Conference, which meets in San Lake City next week. Coast Organizer L. C. Edwards will represent sub-local No. 351 at the conference.

**MARSHAL SENDS THANKS.**

Grand Marshal Bowen of the Labor Day parade has sent the following expression of thanks to the various local labor unions:

"I take this opportunity of thanking you, through the press, for your cooperation in making the Labor day celebration the grandest ever held in Alameda county. Without that co-operation, without the hearty sympathy extended by the unions of Alameda county, the parade would have been a failure."

"Entire credit for the celebration passes to the unions of Alameda county."

**COFFEE HIART.**

Barred by Life Insurance Companies.

Coffee directly affects the heart and many life insurance companies now recognize "Coffee Heart" as a well-defined disease and refuse insurance to those suffering from it.

Leaving off coffee and drinking Postum Food Coffee immediately will place quickly remedied this and puts the heart normal, healthy and steady again.

"I was examined for membership in the Woodmen of the World about a year ago and the examining physician told me that I had the 'Coffee Heart' due to coffee drinking and told me that I would have to stop or he could not answer for results. He said I would no longer find it in me to quit the use of coffee unless I drank well-brewed Postum Food Coffee in its place and recommended Postum to me which he said would not only aid me to give up the coffee habit but would greatly help my health. My pulse registered over a hundred beats a minute and I was not admitted to membership in the order but my application was held open for three weeks.

"I began the use of Postum according to the doctor's directions and was highly pleased with it and liked it better than the best coffee. After three or four days, the beating of my pulse began to diminish and the end of three weeks it was normal and my application and examination papers were again sent to the Sovereign Physician of the Woodmen at Omaha with the result that I received my policy."

"Hundreds of people have I heard remark, 'O, there's no harm in coffee.' Now I never dreamed the use of it was affecting me in the least and consider myself lucky that I underwent this examination just when I did and found out the truth about coffee from this physician. I believe that even when coffee is not suspected it is always doing ill and will in time hurt the strongest constitution."

Before YOU go home

"Just get The Delineator"

THE OCTOBER NUMBER, now on the news-stands, answers squarely the question of supremacy among the magazines for woman and the home. In your selection of a magazine you may choose from two classes—those you need and those you read for recreation—or else you take THE DELINEATOR and combine both.

If the word "necessary" is susceptible of a superlative, THE DELINEATOR is beyond all question the "most necessary" of all the magazines published for Woman. Nine hundred thousand families proved this to be so last month; and each month brings its new thousands of members into the ever-growing DELINEATOR FAMILY.

Among the fashions it is the "most necessary" because it is all the fashion magazines in one, with their mistakes eliminated—their exaggerations corrected, and the really successful novelties stamped with the seal of authoritative approval—for if it is pictured in THE DELINEATOR it is "good form."

It is equally the "most necessary" in the Nursery—in the Sewing-Room—in the Kitchen—throughout the whole house and out-of-doors in city and in country. The partial list of contents below can only hint at the interest underlying every line.

The Evolution of a Club Woman, by Agnes Surbridge, begins in this number. It is an autobiography and is the predicted success of the year. J. C. Hemment, the world-famed camera expert, begins one of the most remarkable series of photographic articles ever presented. They relate to his personal adventures at home and in foreign lands. The Silent Partner, by Lynn Roby Meekins; A Florida Cracker, by Virginia Frazer Boyle, are prominent among the fiction features, while the departments are fuller than usual of the good things, with special interest centering in the children's page.

If the "most necessary" of the magazines for Woman is that one which helps most in every hour of "her" day and brings its after-hour of fascinating leisure-reading when the day is over, then, surely, "JUST GET THE DELINEATOR." Of your newsdealer or any Butterick agent at fifteen cents a copy, or of the publishers, one dollar for an entire year.

## HOLD-UP ROBBER AT LARGE

NO CLEW TO THE HIGHWAYMAN WHO FLEED TILLMAN & WELANDER.

Detectives who have been working on the robbery at Wellander & Tillman's saloon at Seventh and Adeline streets on Tuesday night have found that there were two men engaged in the hold-up and that both have fled this city for San Francisco.

The robbery was one of the most daring that ever occurred in this city. Fifty people or more were within 100 feet of the saloon, and two policemen arrived almost before the echo of the shot had died away which was fired to frighten Wellander.

Detectives Holland and Quigley have learned that the robber and a companion sat out in front of the saloon for nearly an hour before the deed was committed. When the latter of the two men entered the saloon, the other walked to the corner and stopped, watching that he

might warn his associate of the arrival of anyone who was likely to interrupt the proceedings before the inside work was completed.

During the excitement that followed the shot, both men made their escape. Both are described as being well-dressed, the taller one wearing black clothes and hat and the shorter one a suit of brown and slouch hat. The police believe the man who entered the saloon, fired the shot and relieved the till was an experienced crook, saying that only an old hand at the business would have had sufficient nerve to have carried him through knowing that the people in the vicinity would naturally wish to see what had caused the shooting.

**COUNTERFEITERS DISCOVERED.**  
NEWARK, N. J., September 10.—Three men have been arrested in a house in Mulberry street in the act of making counterfeit silver coins. In the place were found silver in bars, melting pots, a milling machine, machines for trimming and finishing the coins and a quantity of coins in all stages of manufacture. One of the men who gave the name of Frank Donahue, is suspected of being a New York policeman. A photograph apparently of himself in uniform and a policeman's shield was found on him. The other two men gave the names of Frank Singleton and James Healey. They will be taken before the United States Commissioner.

**REVOLUTION IN PANAMA.**  
NEW YORK, Sept. 10.—Representatives of strong interests on the isthmus of Panama, who make their headquarters in this city, are reported to be considering a plan of action to be undertaken in co-operation with men of similar views in Panama and Colon to bring about a revolution and form an independent government in Panama opposed to that in Bogota.

There is much perturbation on the isthmus on account of the failure of the treaty, which is ascribed to the authorities at Bogota and the natives of Panama think it is to their best interests for a new republic to be formed on the isthmus, which may negotiate directly with the United States for a new treaty.

## RUNS INTO DEEP DITCH.

MAN BELIEVED TO BE JAMES SULLIVAN HAS A NARROW ESCAPE.

A man who is known about town by the single cognomen of "Jim" drove into a deep excavation on Eighth street, between Brush and West streets, last night and nearly caused his own death and that of the animal he was driving.

A bystander, who rushed to the scene of the accident, said that the name of the driver of the vehicle was James Sullivan and that he is employed by the Southern Pacific Company as a watchman.

Sullivan was pulled out in a badly bruised condition, and enough earth was finally shoveled under the horse to allow it to be pulled out with the aid of ropes.

Sullivan refused to acknowledge his identity, claiming that he would only make his name public with the filing of a damage suit that he threatens to institute.

It seems that the accident was caused by Sullivan's driving to one side of the street to avoid an approaching express wagon. He did not see a light that had been hung out for a warning and drove right over the barrier that had been placed over the excavation. The vehicle belonged to the Pummey stables and the driver was taxed \$13 for the damage it sustained.

**GREWSOME OBJECTS FOUND.**  
ALBANY, N. Y., September 10.—A severed human foot and lower leg—that

of a man—has been found today beside the barn of the Hoteling Hotel at Coeymans. The gruesome object was in a pasteboard box with a vest and an empty bottle. The front of the vest was slashed into strips, as if with a knife, and in the pocket was a note, the first part of it written in English which said in part:

"Dear Romeo: John Adams was at my place last night, and said he was going to Albany to find you and kill you. Don't laugh you know what you did to his brother."

Coroner Smith of this city has the case in charge and will investigate. The doctors who have examined the foot say the amputation was not the work of a surgeon and must have been done about four days ago. There is a large Italian colony between Coeymans and Ravena and the Italians are greatly excited about the matter which at this writing is a mystery.

**DEATH WAS DUE TO NATURAL CAUSES.**

An autopsy held yesterday afternoon developed the fact that Mrs. Mary West, whose death occurred Monday night under circumstances that were deemed suspicious, was caused by fatty degeneration of the heart and incipient cirrhosis, hastened by the action of the poison she had taken, which the husband insists she took mistaking it for pepper.

**WASTED AWAY.**

Last night a coroner's jury at the inquest held in the case of Kate M. Applegate, brought in a verdict of death as a result of consumption. The lady died suddenly on Sunday last at the residence of her sister, Mrs. F. W. Du-

bois, 768 East Fourteenth street, to

which she had been brought the day previous from San Francisco.

**CLEANING RAILROAD CARS.**

It was long ago established that infectious germs were conveyed in coaches and Pullmans so as to present a menace to the traveling public, says the Chicago Record-Herald. The railroad and the Pullman Company have long ago recognized this fact and have instituted reforms in building and caring tending to minimize the public danger. Take the Pullman Company, for example. At the end of every run a Pullman car is taken to the yards, where a compressed air machine is waiting it. The car is first thoroughly swept and then the compressed air is forced through and into every crack and crevice, and into the upholstery with a force that blows everything, including the disease germs, out of the windows and doors. When this process is finished there is no dust left. This process is the same as that used by the Compressed Air House Cleaning Company when cleaning carpets on the floor. Smith Brothers Book Store.

# BERKELEY AND THE STATE UNIVERSITY

## HOLIDAYS INTERFERE WITH FOOTBALL.

### Freshman Gridiron Captain Will Be Elected At the University This Week.

BERKELEY, Sept. 10.—The two holidays observed this week at the University of California seriously interfered with the football practice which was in full swing. The few players who did turn out were unable to do any hard work on account of the heat. Yesterday afternoon a few candidates for both the Varsity and Freshman elevens donned their suits, but were soon compelled to return to the gymnasium on account of the sultry north wind.

In a few days the Freshmen will elect a captain. The most likely candidate for the place is Claude Kern, a graduate of the Berkeley High School, who made a splendid record on the gridiron during his preparatory days.

Next week several of the Freshman players will be informed that they will not be available for the work of building up a team. The Freshman squad is not an aggregation of stars but a collection of hard working players of average ability.

The first Freshman game will be held on Saturday, September 19, with either the Oakland or Berkeley High School.

## FOOTBALL PLAYER LEAVES.

### JAMES HOPPER WILL ENGAGE IN LITERARY WORK IN THE METROPOLIS.

BERKELEY, Sept. 10.—James Hopper, a well known graduate of the University of California, football player and writer, has departed for New York, where he will engage in literary work. During his undergraduate days, Hopper was one of the most prominent students in the University. He was a member of the varsity football team for several seasons and also did work in coaching. He was also editor of the Occident, the student weekly.

Recently Mr. Hopper returned with his wife from Manila, where he was engaged in educational work.

UNIVERSITY SENIORS WILL SING TONIGHT.

BERKELEY, Sept. 10.—The Seniors

of the University of California, will hold a singing entertainment tonight on the North Hall steps, under the leadership of Director J. E. Roadhouse. He will seat the tenors on one side of the steps and the basses on the other.

The Seniors are shrinking from the manner in which their singing is at present being conducted. They hold the meetings for not only informal recitals but for the purpose of discussing matters pertaining to the class.

A committee of Seniors has been appointed to arrange for a dinner at the Hotel Berkeley.

LADIES' AID SOCIETY TO GIVE A RUMMAGE SALE.

BERKELEY, Sept. 10.—The Ladies' Aid Society of the North Congregational Church is preparing for a rummage sale to be held in the near future. Miss Edith Sprague of 2019 Cedar street is at the head of the undertaking.

FUNERAL OF AN AGED WOMAN IS HELD.

BERKELEY, Sept. 10.—The funeral of Mrs. Harriet Clark, who died Tuesday afternoon at the age of 99 years, was held this afternoon at the residence of her son, Charles H. Clark, 1419 Milvia street. The remains will be shipped to Northampton for interment.

## NOTED FORESTER LECTURES.

### GIFFORD PINCHOT TELLS ABOUT CALIFORNIA IN HIS ADDRESS.

BERKELEY, September 10.—The first of a series of lectures on forestry was delivered yesterday afternoon by Gifford Pinchot, of the United States Department of Agriculture at Washington, and head of the government work in the Students' observatory at the University of California. The subject of the lecture was "The Forest Reserve Policy in California." He said in part:

"On the question of forest reserves, California is like a great family divided against itself. A Southern California is unanimously and always for the reserves, and Northern California is opposed to them, with Central California favoring them but not strongly. As a whole, however, California is as consistent on the forestry reserve problem as any State in the Union."

"The purpose of the forest reserve is to provide the greatest amount of usefulness from the lands which they contain. Unless it is useful to those living in their immediate neighborhood or to those whose needs it might supply is absolutely useless. This is the question of heart and focus of the whole question. In taking up the question the government has overlooked the private interests of the country in favor of the public good. The result has been the opposition of the most virulent kind has been raised. These private interests have been able to create a serious opposition. I have been warned not to take chances, but I have never yet found a case where opposition privately backed has long survived a clear understanding of what a reserve really was."

"Now on this matter of the use of public reserves and the opposition to them in California, I want to say that one of the greatest objections that in regard to the boundaries and the exchange lands. In North California 12,000,000 acres of public land have been withdrawn and turned into forest reserve. Some of this is suitable for growing but a great deal is altogether useless. Now one of the laws regulating the reserves provides that any man owning land within the reserve may exchange it for other lands. The provision is a good one. It was put in because the settlers had made settlements and spent their money and they should be reimbursed. But the law was used by speculators to further their own ends. They owned lands within the reserves, and of course manipulated them so that they could get much more valuable lands in the exchange with the government. The railroads, which own large tracts of the forest reserve lands, could not close with dealing for which this sort of speculation, but the government has been smart enough to deal with these people and in a recent exchange with the San Joaquin river company, only got such lands in exchange as were equivalent to those it held."

"I am not an advocate of grazing lands

## EXPERIMENTAL STATION IS GIVEN UP.

### Property of Paso Robles Agricultural Station is Abandoned.

BERKELEY, Sept. 10.—After maintaining the Southern Coast Range Experimental Station at Paso Robles the University of California has abandoned the depot. The property which was occupied by the station goes back to the donor, J. V. Webster, who gave it for experimental purposes in 1887. The buildings, including the farmman's dwelling and barns, all of which were erected by popular subscription, will also revert to Webster.

This is the first agricultural station to be dropped by the University. There are still five left—the Loma, Tulare and Jackson agricultural stations, and the Chico and Santa Monica forestry stations.

The Paso Robles station was dropped upon the recommendation of Superintendent A. V. Stubbs, who recently inspected it on his southern trip.

for reserves because they ought to be used for agriculture; and I believe that all agricultural lands inside of the reserve should be used exclusively for agricultural purposes."

"We now come to a very important objection—that the mineral industry of Northern California will be abolished by the advent of the forest reserve. In the first place the miner has just as much right to work inside the reserve as outside. The only difference is made in the case of mining corporations which require a large amount of timber. The forest reserve will not affect the California miner at all."

PROFESSOR PAGE WILL RETURN NEXT CHRISTMAS.

BERKELEY, Sept. 10.—Professor Thomas W. Page, who was appointed associate professor of medieval history at the last meeting of the Regents of the University of California, will come to Berkeley about Christmas to give lectures during the second semester. LOOKING FOR TREASURE.

STAMFORD, Conn., Sept. 10.—The mysterious arrest and subsequent release of four young men near Woodside Park has led to reports that several detectives are at work in this vicinity seeking to locate a large sum of money alleged to have been secreted after the exposures leading to the imprisonment of Captain Oberline M. Carter at Fort Leavenworth, Kas., and the flight to Canada of Captain B. D. Greene and John F. Gaynor.

CHAMPION HAIR CUTTER DEAD.

NEW YORK, Sept. 10.—Lucia Tancia, who for nearly a quarter of a century defended his title as champion hair cutter of the world and had shaved the heads of dukes and princes, has been buried in a long and costly funeral in an imposing Masonic funeral parlor, a thirty-third degree member of that order.

Francis was born in Naples. Thrown poor his own resources by the death of his father, he set out to make the world after learning to be a barber. He became attached to the staff of aasha at the siege of Alexandria and subsequently made the acquaintance of the Duke of Cornwall. He remained there for several years in India. His biographer says he also had the distinction of being the tonsorial attendant of Prince Leopold of Prussia, Lord Dufferin, the Sultan of Hyderabad, and a governor of Bombay.

The reduction is said to be the result of protests by New York grain merchants against the high rates current to this port, which were. It was claimed, forcing the bulk of the grain exports through the gulf ports and Montreal.

The new rates, which were largely in the shape of a compromise, will expire on October 15th. They will apply to Boston and Philadelphia as well as New York. Baltimore has a differential of four mills.

Miss Agnes Miller, of Chicago, speaks to young women about dangers of the Menstrual Period—how they can avoid pain, suffering and remove the cause.

"I suffered for six years with dysmenorrhea (painful periods), so much so that I dreaded every month, as I know it meant three or four days of intense pain. The doctor said this was due to an inflamed condition of the uterus appendages caused by repeated and neglected colds and feet wetting."

"If young girls only realized how dangerous it is to take cold at this critical time, much suffering would be spared them. Thank God for E. L. Pinkham's Vegetable Compound, which helped me any. Within three weeks after I started to take it, I noticed a marked improvement in my general health, and at the time of my next monthly period the pain had diminished considerably. I kept up the treatment and was cured a month later. I am in perfect health."—Miss AGNES MILLER, 25 Potomac Ave., Chicago, Ill.

be an effective way of divesting the greenbacks of their power or harm. The second feature is for the depositing of all public money in the banks, the government to get two per cent interest and be secured by a first lien on bank assets, the relationship between the government and the banks thus resembling the present relationship of states and municipalities to the banks where they keep their money on deposit. Deposits are not to be larger than fifty per cent of the paid-up capital of banks receiving them.

The third feature of the bill will be a provision for "asset" or "credit" currency. National banks will be permitted to put out such currency by depositing in the United States Treasury gold coin or government bonds equal to ten per cent of the amount so put out. This 5 per cent together with the 2 per cent interest on government deposit, and a 1 per cent tax on the notes, will constitute a "guarantee fund." When this "guarantee fund" amount to \$10,000,000 the excess over this amount would be used in purchasing and holding gold, converting the greenbacks into gold certificates.

## MRS. DR. W. W. KERGAN SHOT AT HUSBAND'S SIDE.

### Victim of a Bullet Intended for Shooter's Fleeing Assailant, in San Francisco.

A stranger with a pistol from the interior part of the State made a target of a man whom he claims assaulted him on Market street in San Francisco shortly after 11 o'clock last night and the bullet, going wild, hit the wife of Dr. W. W. Kergan of 957 Eighth street, in this city, who, with her husband, had been to the theater and were returning to Oakland.

The bullet took effect in Mrs. Kergan's hip and just how serious the wound may prove cannot be told at present.

#### THE ASSAILANT.

The man who fired the shot is C. T. Hubbard of Selma and is now in jail in San Francisco.

It was shortly after 11 o'clock that Dr. Kergan and his wife were on Market street, near the Phelps building, waiting for a car on their way to the ferry for this side of the bay when the report of a pistol was heard on the opposite side of the street.

#### FELL INTO HUSBAND'S ARMS.

Mrs. Kergan screamed and fell into the arms of her husband, who assisted her to a carriage and has her quickly driven to the home of his father at 323 Hyde street.

Later the victim was removed to her home here.

#### HUBBARD'S STORY.

Hubbard, the man who did the shooting, had the following to say last night regarding the affair:

"I was walking down Market street, having been to the Alcazar. A man stepped up to me and made some remark about my clothes. I naturally resented the insult and told him in strong language to mind his own affairs. He then struck me and nearly knocked three of my teeth down my throat. I never saw the man before in my life. I shot at him when he struck me."

#### IN JAIL.

Hubbard was arrested by Policemen D. J. Driscoll, J. L. Farrell and Michael Brady, and was booked on a charge of assault to murder at the Southern Police Station. Later on in the evening the prisoner was removed to the Central Station. Detectives Cady and Bell are investigating the case and will try today to locate the man with whom Hubbard had the difficulty.

#### HUBBARD BLED.

After firing the shot Hubbard ran in-

to the saloon at 757 and made for the rear of the place. His mouth was bleeding, showing where he had been hit. He then ran a few feet to where the saloon, out of which he might escape. One of the proprietors ran back, sized him and brought him out on the sidewalk. He held him there for several minutes until the police appeared on the scene and took him in charge.

All efforts of the police to locate the man at whom Hubbard shot, failed. The people at the saloon at 757 Market street deny Hubbard's story that the fellow who had struck him in the mouth had just come out of that place. Hubbard gave no indication of having been drinking and he repeatedly denied to the officers that he had the least idea who the young man was that he said had assaulted him.

#### OCCUPATION.

Hubbard says he is a telegraph operator in the employ of the Southern Pacific railway at Selma in the San Joaquin Valley. He has been a guest at the Oaks on Third street for the past few days.

#### SAW MAN IN FLIGHT.

J. T. Brown, a barkeeper, was close by waiting for a car when the shooting took place and said:

"I saw a young fellow run across Market street from the south side. I turned to see who had fired the shot. I then saw the man who had fired the shot run into the saloon at 757 Market. At the same time I heard a woman give a cry. Her husband was supporting her when I saw her. I knew none of the parties. The man arrested had a bleeding mouth and I heard him say he had been hit in the mouth by a stranger and had shot at the fellow as he ran off. I would not recognize the fellow who ran away because I did not see his face."

#### MRS. KERGAN'S CONDITION.

Mrs. Kergan, the victim of his reckless shooting, was resting as well as could be expected today at her home in this city.

In speaking of his wife's injuries this morning, Dr. Kergan said:

"The bullet is lodged somewhere in the fleshy muscles of the thigh. Last night Dr. Larkey and myself probed the wound to a depth of seven inches but could not locate the bullet. It did not fracture the bone."

"We will make an X-ray examination today."

## STEVENS HURT IN WANTS ALAMEDA BAR FIGHT TO HELP

### TOO REALISTIC A SCRAP IN BUSINESS OF PLAY AT MACDONOUGH.

During the performance at the Macdonough Theater last evening, Laniers Stevens, the actor, was painfully injured in the bar-room fight that constituted the climax to the second act. The scene is characterized by an energy that is most realistic to the audience. It seems as though several of the participants are given a severe drubbing. It was not until last night, however, that anyone was actually injured. During the fight, Mr. Stevens was jumped by two of the other actors, but it was not until the act was over that he realized the extent of his injury. A physician was hurriedly summoned, and after examination announced that the young actor had sustained a fractured rib.

Mr. Stevens insisted on concluding the performance, and will continue to play Joe Morgan for the remainder of the week.

Carl Berch took a severe fall on Tuesday evening, while making his escape from the wrath of Carrie Nation and her hatchet. Mr. Berch slipped over a box on the stage and struck the floor on his shoulder and side. He was severely bruised, but with luck and amica has been able to continue in his part.

#### MRS. MAYBRICK'S FIGHT FOR MONEY LENGTHENS OUT.

NEW YORK, Sept. 10.—The hearing in the matter of the trustees of the Holbrook estate, in which Mrs. Florence R. Maybrick has a reversion, has been adjourned until September 22. John H. Judge, the referee, said the adjournment was taken because all the defendants have not yet been served with a notice to attend. The reference is to the application of Hayden and Yarrow, Washington lawyers, representing Mrs. Maybrick and her mother, for an accounting of the estate of Dr. Charles Blake Holbrook. Mrs. Maybrick's grandfather, Dr. The estate was originally valued at more than \$1,000,000.

## CHINESE COMING BY GREAT LAKES.

### OGDENSBURG, N. Y., September 10.—

Papers have been served on the Chinese Inspector here by attorney James E. Akin of Ogdenburg, requiring him to show cause before United States Judge Cox why 147 Chinese prisoners detained at Malone should not be discharged or given immediate trial. The men were arrested along the border, charged with being unlawfully in this country, and have been imprisoned in the old jail barn for a month awaiting trial. The quarters are greatly crowded and in an unsanitary condition. One Chinese has just died as a result of close confinement.

Twenty Chinese ordered deported by the United States Courts have been stopped in Montreal on habeas corpus proceedings, while passing through Canada, to board a ship at Vancouver in charge of American officers. The Chinese contend that the American officers have no authorities over them in Canada and ask the court to order their discharge.

## WATSONVILLE NOW TERMINAL POINT.

SAN JOSE, Cal., Sept. 10.—The Southern Pacific Company announces that Watsonville has been made a terminal point for apple shipments. The rate of \$1 will apply from that place, from San Jose and intermediate points to common points east of Chicago.

The low rates made by the Southern Pacific Company last year, to meet emergency conditions and assist apple growers, will continue in effect this season. These rates are 75 cents to Denver, 75 cents to Missouri River points and 85 cents to Mississippi River points and to Chicago. It is believed by the Railroad Company that these rates will materially help the growers of Fajardo Valley.

## BROTHERS OF B. P. O. E. TO BURY BUCKMAN.

The funeral of Homer O. Buckman will be held in Sacramento Friday morning, after which the remains will be brought to this city in charge of Sacramento Lodge of Elks and interred in the family plot of Mr. and Mrs. J. H. Fairchild, in Mountain View Cemetery.

The Fairchilds adopted Mr. Buckman when he was a little boy. After his death they telegraphed the Sacramento Elks that the plot was at their disposal. The Elks will have full charge of the funeral and burial which will probably be held here Saturday morning.

#### CLERK STOLE \$800.

BOSTON, Sept. 10.—Charged with the larceny of stocks and bonds aggregating some \$800, Frank G. Christianson, 19, for five years past a clerk for Robert D. Evans, a stockbroker, has been locked up at police headquarters, where he confessed his crime. There is a pathetic side to the case in the fact that Christianson gave \$250 of his pecuniations to his father to enable the latter to visit Sweden, the place of his nativity, and the father is now on the ocean en route to his old home, wholly unconscious of his son's wrongdoing. Young Christianson said that all the rest of his money is gone, having been lost on the races which he had followed with the past few years ago, leaving an estate valued at several millions, of which Mrs. Hoffman inherited a large portion.

Hoffman of the General Theological Seminary, who died a few years ago, leaving an estate valued at several millions, of which Mrs. Hoffman inherited a large portion.

## AN IMPROVISED HOME CIRCLE

LITTLE BELLE-ODURY AND COUSINS. (Photo Belle-Odury.) The pose of the little boy, playing father of the family, and his sisters, pouring and sipping tea, respectively, is very natural, but not more so than that of young Master Belle-Odury, on the ottoman, who has a watchful eye on the in-explicable antics of a kitten, which has come within the range of his vision.

## CHARLES PUGH IS SAY TRAIN WAS INJURED IN MOTION.

### FELL FROM SLIPPING SADDLE WHILE PICKING UP HIS HAT.

In attempting a c-o-woy trick that he had done a hundred times before, Deputy County Clerk Charles Pugh, had his saddle turn with him last Monday. He fell off his horse and was dragged by the stirrup for some distance. Two of his ribs were broken and his face badly bruised.

Pugh had lost his hat and, with his horse on the gallop, tried to pick it up from the ground as he went along. At the critical moment the saddle turned and the rider fell to the ground.

In company with Ralph B. Stocker and his wife, left last Saturday to make a pleasure tour of Contra Costa and Alameda counties. They were returning and had left Pleasanton and had got nearly to Dublin when the accident occurred. Mr. and Mrs. Stocker were driving with Pugh rode and the latter was put into the vehicle and taken to his home at 232 Twenty-fourth street.

## CHARGES AGAINST DEFENSE ON THE ADMINISTRATOR STAND

### C. C. WEBB OF BERKELEY MUST ANSWER IN SUPERIOR COURT.

Charges of abuse of his trust as administrator in the matter of the estate of Samuel Webb, deceased, were made in a petition filed today, against C. C. Webb of Berkeley, who, it is claimed, had himself appointed administrator of the estate of his brother and mentioned in his petition, the estate comprising only one lot of land in Alameda valued at \$100 while also belonging to his estate is property in San Francisco valued at \$100,000 and 15 and 108 East street, valued at \$5,000 and bringing in a rental of \$125 a month. It is alleged that Webb has collected five months' rent of which he has made no return and the petition asks that the letters of administration issued to him be revoked.

The petitioner is H. A. Reid, of No. 1, Montgomery block, San Francisco. He sets forth that Samuel Webb, widow of Demerara, has a daughter, are living on the Old Weymouth Homestead Weymouth, Massachusetts. That they are old and dependent on the \$125 a month for their living and that for five months they have received no rental. It is said that he was appointed administrator of the estate without their knowledge and against the wishes of them both.

Petitioner further states that at the time of his application to be appointed administrator of the estate he knew of the San Francisco property but did not mention it, and therefore, was only required to file a nominal bond of \$100. Therefore it is asked that the letters of administration issued to him be revoked and Reid appointed in his place.

## FIRE DESTROYS ELLSWORTH DRYER AT NILES.

### Owner Burned and Loss of Sheds and Fruit Will Amount to At Least \$20,000.

NILES, Sept. 10.—One of the largest fires which has been experienced in this section for a long time took place last night.

It destroyed the office, cutting sheds, evaporator, almond sheller and huller and engine-rooms of the Edward A. Ellsworth dryer here, valued at \$10,000, with \$10,000 worth of dried fruit.

Mrs. Ellsworth was badly burned about the face and left hand. Only the heroic work of neighbors saved two warehouses containing machinery and fruit valued at \$100,000.

No cause is known for the fire, but last spring an attempt was made to set

hay afire in the barn and field by unknown parties.

It is supposed that this is another attempt as the fire was first discovered in the northwest corner of the shed farthest from the house.

There was an insurance of \$5000 on this portion of the buildings and fruit. There was \$7000 worth of apricots all packed and ready for shipment, the property of Mr. Chadbourne of Centerville, the insurance on which is unknown.

The almond harvest is at its height, and with nearly everything contracted for by Ellsworth the fire will make it hard on the growers.

## STOLE HIVE OF RECORD BROKEN IN RECEIPTS

### JUVENILE SENT TO BOYS AND GIRLS' HOME FOR THEFT.

Judge Ellsworth and the court laughed this morning when Maxey Lorette, a 11-year old boy acknowledged to stealing a hive of bees. They had heard of carrying off a hot stove but never a hive of bees. Maxey was being examined before the Juvenile Court on the complaint of Miss C. Anita Whitney, of the Associated Charities, and an officer of the court.

She alleges that the boy's mother is dead and that he is dependent and gets little of the care that should be accorded to a child of his age. He had been accused of stealing numerous articles but stoutly maintained his innocence of taking anything more than the hive of bees and then everybody laughed.

"You say you never stole anything but a hive of bees?" queried the Judge.

"No, sir."

"Well, tell us about it. How did you come to steal it, or where?"

"Well, we live out near Golden Gate and a man out there owns some bees, and one day he was away from home and me and some other boys wanted some honey so we took the hive."

"Did you get the honey?"

"Yes, sir."

"Well, Moxey, I think with good treatment you would make a pretty smart man, but I believe you should have good care and I will send you to the Boys' and Girls' Aid Society's Home in San Francisco for five years. By that time you will know how to take care of bees unless you first smoke them out."

#### Owes His Life to a Neighbor's Kindness.

Mr. D. P. Daugherty, well known throughout Mercer and Sumner counties, W. Va., most likely owes his life to the kindness of a neighbor. He was almost hopelessly afflicted with diphtheria; was attended by two physicians who gave him little, if any, relief, when a neighbor, learning of his serious condition, brought him a bottle of Chamberlain's Cough, Cholera and Diarrhoea Remedy, which cured him in less than twenty-four hours.
